- Madeira® Embroidery Thread
- Baby Lock Cut-Away Stabilizer
- Temporary spray adhesive
- Chalko Marker

Instructions:

Embroidery

1. Place a positioning sticker on the center front on each of the pajama tops. (Approximately 3" down from the top for the smaller sizes and 5" down for the adult sizes.)
2. Turn the machine on and oil your machine while selecting the oil icon. This will guarantee that the machine will be oiled properly before you start the project.
3. Select the design from the built-in design library under Exclusives, Celebrate category. Select the rocking horse for the childrens tops and the ornament design for the adult tops.

4. Hoop the stabilizer and lightly spray the stabilizer with the temporary spray adhesive. Place the first pajama top over the hooped stabilizer with the positioning sticker centered in the hoop. Finger press to secure. Attach the hoop to the machine.
5. Select the Positioning icon. The machine will find the Positioning Sticker and adjust the design so that it is centered and in the correct orientation for embroidery. Remove the positioning sticker from the top.
6. If you need to make a change to any of the thread colors, select the Madeira thread catalog. Then, select the individual color chips and make changes as desired. Thread the machine with the Madeira threads according to the colors in the design.
7. Embroider the design.
8. Un-hoop the pajama top and cut the stabilizer away from the pajama top.
9. Repeat for the other pajamas.
