

“HORATIO WALL POCKETS”

Watch Horatio's fun personality come alive as you create this whimsical and fun project. The characters from Horatio and Friends a licensed card from Baby Lock® have a side to them that are sure to entertain you and your family for many years.

Skill Level: Basic

Created By: Diane Kron, Product Development Specialist

Supplies:

Baby Lock® Sewing & Embroidery Machine

Baby Lock® Embroidery Card Horatio & Friends (BLDP-C25)

Simplicity® Press

2 each coordinating Fat Quarter prints (blue gingham, & yellow bear print)

Low-loft batting

Assortment of Madeira Embroidery Threads

Sulky® Tear-Away Stabilizer

3/8" dowel cut to 8 3/4" long or 8" purchased wire hanger

4 wood beads for the ends of dowel rods

Embroidery Floss to match fabric

Sulky® KK2000 Temporary Spray Adhesive

Collins® Fine Line Air Erasable marking pen

Supply list includes enough materials to create both pockets. All seam allowances are ½". Add ½" for all seam allowances to all templates when cutting out the pieces.

Instructions for Scalloped Edge Pocket:

1. From the Scalloped Edge Template cut one piece from each of the coordinating fabrics. (blue gingham, & yellow bear print)
2. From the Back Template cut two pieces from the yellow bear print and one piece from the batting.
3. From the Front Template cut two pieces from the yellow bear print and one piece of the batting.
4. Hoop the Tear-Away Stabilizer.
5. Spray the hooped stabilizer with the Sulky® KK2000 Temporary Spray Adhesive.
6. Determine the center on the blue gingham scalloped edge piece and mark with the Collins® erasable marking pen. This will be the front collar on the pocket.
7. Place the blue scalloped piece in the center of the hoop using the marked point as the reference for perfect placement. Finger press in place. Tip: Starching the piece helps to maintain the shape during embroidery.
8. Retrieve the design # 22437 from "Horatio & Friends" collection on the hard-drive and write to a floppy disk, thumb drive or read design through the USB connection into the EMP6 or Ellegante machines. Embroider the design.
9. Press the embroidered piece face down using the Simplicity Press.
10. To create the scalloped edge collar - place right sides together of both the embroidered collar and the yellow collar section, stitching only around the scalloped edge, leaving the top open for turning. Turn right side out, clip corners, turning under ¼" on the raw edge and press.
11. To form the front section - place right sides together of the yellow print pieces with the batting on the back. Stitch leaving a side open for turning. Trim seams to ¼" and clip curves and corners. Press.
12. Attach the collar to the front section and topstitch on top edge.
13. For the back section - place right sides together with the batting on the back. Stitch leaving an opening for turning. Leave a ¾" opening on each side seam at the top for the dowel to go through. Trim seams to ¼" and clip curves and corners. Turn and press the raw edges inside.
14. Pin the two pieces together and machine or hand stitch the edges using a blanket stitch using the embroidery floss.
15. Slide the dowel through the ¾" opening and attach a wooden bead to each end.

Instructions for Plain Edge Pocket:

1. From the Front Template cut out two pieces from the blue gingham fabric and one piece from the batting.
2. From the Back Template, cut two pieces from the yellow bear print fabric and one piece from the batting.

3. Hoop the Tear-Away stabilizer and spray with KK2000 Spray Adhesive.
4. Mark the center of the blue gingham front piece. Place onto the hoop and finger press in place so that your mark is positioned in the center.
5. Retrieve design # 22435 from "Horatio & Friends" and embroider.
6. Press the embroidered piece face down using the Simplicity Press.
7. To form the front section - place right sides together of the embroidered blue gingham piece and the plain gingham piece. Place the batting behind the pieces. Stitch leaving an opening for turning on the side. Trim seams to ¼" and clip curves and corners. Press.
8. Place the back sections right sides together with the batting on the back. Stitch leaving a four inch opening for turning. Leave a ¾" opening on each side seam at the top for the dowel to go through. Trim seams to ¼" and clip curves and corners. Turn right side out, raw edges to the inside and press.
9. Pin the front and the back section together. Machine or hand stitch the edges using a blanket stitch along the outside edges using the embroidery floss.
10. Slide the dowel through the ¾" opening and attach a wooden bead to each end.
