Simply Fun Halloween Towels

These towels are so much fun to make as they are to hang. The really great part is they couldn't be easier to make. If you're lucky enough to find towels on sale, make a couple sets to share!

MATERIALS

- Baby Lock® Ellure Plus or machine with a 130mm x 180mm embroidery field
- Patrick Lose's Happy Halloween collection—ADP-89
- 3-piece bath towel set
- 1 Spool 1-1/2" wide black and white ribbon
- Baby Lock® Rinse Away Tear Away stabilizer
- Baby Lock® Hydro-Melt Embroidery Topping
- Temporary spray adhesive
- Small and medium hoops
- Air Erasable Fabric Marker Ruler
- Small Scissors
- Assortment of Madeira® embroidery thread

INSTRUCTIONS

At the Computer

1. Browse the design collections and locate designs PLH119, PLH120 and PLH121.
2. Set up your machine for embroidery.
3. Load the PLH120 design onto your machine. Hoop the tear-away stabilizer in the appropriate hoop and spray with temporary spray adhesive (some designs in this collection require the 130mm x 180mm hoop).
4. Attach the bath towel to the stabilizer, centering it in the hoop just above the border stripe. Layer a piece of Hydro-Melt Embroidery Topping on top.
5. Stitch the design. Remove from hoop and tear away the excess stabilizer.
6. Repeat these steps to stitch the other designs onto the hand towel and wash cloth.
7. Cut a piece of ribbon the width of the towel + 1". Pin this to the bottom of the towel, tucking the cut ends at each edge of the towel.
8. Set up your machine for straight stitch sewing.
9. Using a straight stitch, sew along the top and bottom edge of the ribbon to attach it to the towel. Repeat this for the hand towel.

These towels are ready to hang or take to the party for the bewitching hostess!

EmbroideryWorks

Software that is Easy to Learn & Fun to Use

Who knew embroidery editing could be so easy to learn! EmbroideryWorks software programs are packed with all the embroidery editing tools you love: sizing, lettering, density adjustments and more.

Start with EmbroideryWorks Everyday for your essential editing needs. If you want to fine-tune designs, then add EmbroideryWorks Advanced for even more features.
