Instructions:

Embroidery

1. Before cutting out the pattern pieces from the fabric, trace around the pattern Circle Bag "A" Front/Back onto the main fabric for the bag. This will help determine the placement of the designs. Place a cross mark in the center of the traced outline of the bag.
2. Turn the machine on and set up the machine for embroidery.
3. Select the design from the built-in design library located under Exclusives, Delicate. Select design number 004 from the list.
4. Using the 5" x 7" hoop, hoop the stabilizer, and the black print fabric. Place the cross mark in the center of the hoop. Attach the hoop to the machine.
5. Rotate the design as needed to fit inside the drawn outline shape of the bag. If you need to reposition the design, you can also use the arrow keys to fine tune the positioning in the hoop. The needle is positioned in the center of the design before you start embroidering the design.
6. Thread the machine with Madeira #1037 red rayon thread. Although the design has more than one color, the design will be stitched out using only one color. Yes, the machine will stop between colors. But press the start button to continue through the each of the color stops to complete the design.
7. Un-hoop embroidered section and tear-away the stabilizer from the back.
8. Follow the pattern directions to assemble the bag.
9. Place Swarovski Crystals on each of the flower centers to give that little hint of sparkle to the bag.
