

This scanning frame is designed to be used with the innovative Baby Lock IQ Designer feature, estimated to be available in November 2016.

IQ Designer digitizes your hand-drawn, scanned or imported artwork, and lets you create your own embroidery designs and quilt topstitching with ease.

In November 2016, please go to <http://babylock.com/downloads/> to update your Baby Lock Valiant (BMV10) embroidery machine with IQ Designer.

We hope that you look forward to creating with IQ Designer. Thank you for choosing Baby Lock.
