Multi-Color Candlewicking Stitches

By Diane Aholt

Instructions:

1. Open 

2. Open Line Property Menu 

3. Select the line drawing tool 

4. Draw a vertical line on the design page to the desired length.

5. **Tip:** An easy way to draw a straight line is to click on the stamp key  Select Basic shapes

and choose the square on the first row. Press  and resize to

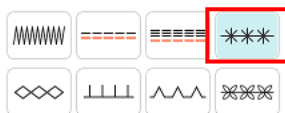

desired height. Click on the eraser  and remove three sides (one vertical line and two horizontal lines) so one vertical line remains.

6. Open Line Property Menu

7. Select a color and the candlewicking stitch

OK

8. Touch the cup key and touch the line

9. Open Settings . On page 9, set the machine to metric. OK

10. Click to set the attributes

11. Set both the candlewicking size and spacing to 10mm as shown. Press OK to apply.

12. Press Set and OK which sends it over to the embroidery edit screen.

13. With the candlewicking stitch highlighted, touch

14. Touch and center the design

OK

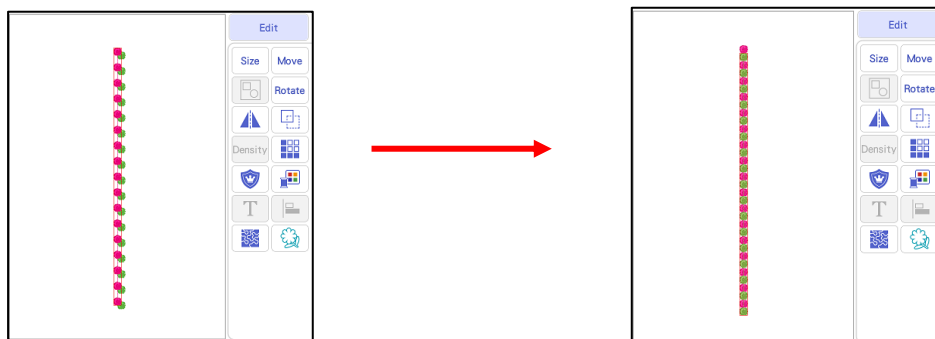

15. Touch From the drop-down menu, choose the copy/duplicate key

16. Change the color of the duplicated one by touching and choosing a new color. OK

17. Merge the two designs so they are alternating as shown OK

18. Group the two together by selecting . On the next screen touch

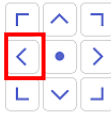

so it turns pink. OK

19. Finish Grouping by touching

20. Touch  and move the design to the far left  OK

21. Touch the border key

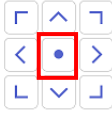

22. Touch the horizontal orientation key

23. Press   to achieve the number of desired rows

24. To increase the spacing between rows, press

25. Center the entire design  OK

26. Touch  and stitch the design!
