

Venture - First Projects With Patty Marty

In this next video in the series, we set up a tote bag project using the free arm and also look at the exciting editing features on the Baby Lock Venture.

Let's pull up a design and get started:

HOME PAGE

- All built in designs and fonts are housed here
- BABY LOCK DESIGNS
- Under this heading you will find several different exclusive Baby Lock designs categories

- Floral, Frames, Celebrate, Home Accents, Quilting, Novelty, Ocean Life

TIP: you can change your thumbnail size for easy viewing: Small, Medium, Large
Select RETURN twice

Select the MEDALLIAN icon

- 50 more designs housed under this icon

Select RETURN

FOR THE LOVE OF SEWING

COLOR BAR- We explore more on the color bar in this video, First Stitches

Frame Shapes

- Great for making quilt labels, simple appliques, decorations on projects

Built in Decorative Stitches & Buttonholes

- Built in Buttonholes in 3 different sizes
- Monogram lettering
- Diamond, Frame,
- Fonts:
- 37 fonts including the Exclusive script
- 3rd option - 14 large fonts built into the VENTURE
- Let's select an option here for this project
 - Select a LETTER
 - Select SET
 - Select ADD

- Enhanced border function option –

We will explore the Enhanced border function in another video, Positioning Designs

Import or Retrieve a saved design

- A pocket of memory to store designs
- Import designs from your own collection with 2 usb connections
- Directly connect to a computer
- Ability to send design wirelessly from Palette 11 Software

Select RETURN to go back to the EMBROIDERY EDITING page

FOR THE LOVE OF SEWING

On this screen you can see:

- What size hoop your design fits
- The overall size of your design
- Individual Design sizes depending on how many designs are chosen
- Design movement
- Colors
- Camera View
- Zoom in/out

We are using the 5x7 hoop to stitch the tote bag:

- Adjust the frame holder for that hoop size
- Loosen frame holder and slide over to 5x7 hoop – sensor will recognize hoop
- Design is too large as seen by gray box
- Size – up 20% or down 10% - squish or stretch your design with no stitch adjustment
- Zigzag – okay to set to original size and position?
 - Select OK
 - Resize using presets up 200% or down 60%
 - Select RESET to set back to original size

- Select the arrows to reduce to 5x7 hoop size
- Select OK
- Use pre-sets or red dots – both allow you to rotate on screen
- Mirror Design - set one design and mirror the other
- Density
- Blue Spool – play with color
 - Select the BLUE SPOOL
- All colors listed in stitch order with preview of each design color
- Change colors to match thread
- Multiple same-color sections - Link colors together

Color Visualizer

- See designs in with other thread options
- Select COLOR VISUALIZER
 - Random, Vivid, Gradient, Soft
 - Soft – Preview different versions – refresh for more options
 - Vivid – brighter colors – refresh for more options
 - Gradient – select a color, pin it, ombre shades
 - Random – Auto or Manual – chooses 300 color options
 - Manual – pin thread stand color or fabric color for example
 - View design with colors selected
 - REFRESH for more options
- Favorites -Heart icon

FOR THE LOVE OF SEWING

- Select colors as Favorites
- Unpin favorites by selecting
- Favorites icon displays all Heart selections
- Save up to 9 Favorites
- Select SET

Editing Features

- Color Palette Change Key
- Select OK
- Border Function – repeat border design
- Duplicate designs – Huge time saver!
 - Select DELETE to remove design
- Use stylus or arrow keys to place design or use move keys

Features we will explore in other videos:

- Applique key – turn design into a patch applique
- Shape Creation Key – works with IQ Designer program
- Automatic Stippling/Auto Echo Quilting designs
- ADD – go to main page to bring in designs to build
- DELETE – take away designs, highlight first
- UNDO/REDO - or touch the center
- Select ADD
- Select BUILT in FONTS
 - Type text
 - One touch editing features include:
 - Large, Medium, Small
 - Array or Arch the lettering
 - Adjust Spacing – extend or squish lettering
 - Justify - Center – Right Justify
 - Different Font type options
 - Editing ability
 - Add a line of text for optimal personalization
 - Select SET

Embroidery Editing Page

- All features are available for editing with design on screen
- Select MOVE key
- Select RESIZE key – make design smaller
- Select MOVE key again
- Change FONT color
 - Select COLOR PALETTE option to pull same thread for different design segments
- Select EDIT END

EMBROIDERY SETTINGS page

- Rotate Design

FOR THE LOVE OF SEWING

- Add a basting stitch
- Pattern Connectivity
- Deselect Regions or add pauses – Add fabric for applique, trim threads, put a topping on your project –
 - Select the HAND icon, machine will pause at chosen color
 - Select HAND icon again, to remove pause
 - Select sections of design and deselect regions of the design
 TIP: removing outer color sections of the design doesn't change the overall size of the design
- Positioning Stickers
- Color Sorting – used with non-overlapping designs
- Monochromatic Sewing
- Move Keys
- Edit
- Memory - save to machine memory, usb, computer or wirelessly send to Palette 11 software

Point of placement & Trace

- Loosen the screw and place outer ring hoop & tearaway stabilizer inside your tote
- Place inner hoop ring on outside of tote and press gently onto the outer ring
- Tighten the outer ring screw
- Slide frame onto frame holder securely making sure project is free and out of the way of the free arm
- Select CAMERA – using the built-in camera -using Precise Touch Positioning
- Select OK – message appears *Frame will move to scan design*
- Select TRACE to show exactly where design will go
- Select EMBROIDERY

Color Memory

- Machine remembers where colors were used in previous designs
- Select CLOSE
- Select DOUBLE SPOOL with arrows
 - Select thread spools to switch
 - Select the DOUBLE SPOOL with arrows to move swap color positions
 - Select OK

Select LOCK to unlock

Light turns GREEN –

Press Green/Start Button

When embroidery is completed - Select OK

Remove hoop from machine

Remove hoops from project
