

# BABY LOCK SEWING ACCESSORIES

## 1/4" Quilting Foot (BL66-QF) Instructions

The markings on the 1/4" foot are to aid in guiding fabric edges for perfect 1/16", 1/8" or 1/4" seams.

### Machine Settings:

Stitch	Stitch # 01 and # 03
Stitch Width	Center only

### INSTRUCTIONS:

1. Select stitch # 01 in the center needle position.

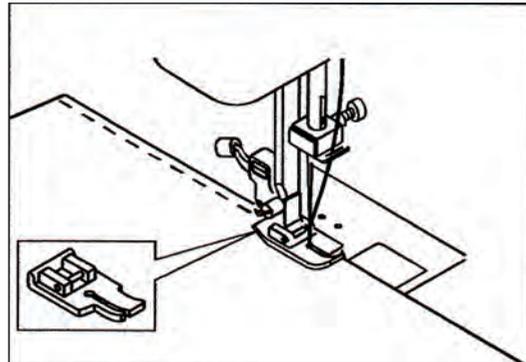

**Note:** Because of the small opening, the straight stitch is the ONLY stitch to be used when sewing with the straight stitch, quilting or 1/4" foot.

2. Turn the handwheel and watch that the needle will go into the needle hole of the foot.

3. Align the fabric edge with the marking of the foot for the appropriate seam width.

4. Sew, guiding the fabric edge along the marking.

**Note:** When using stitch # 03 thread monofilament in the upper thread, tighten the upper tension to 7. Sew at slow speed and the bobbin thread will appear on the surface of the fabric to resemble hand stitch quilting.

**FOR THE LOVE OF SEWING**
