

BABY LOCK LONGARM ACCESSORIES

Deluxe Quilt Clamp

BLQ-DQC

Use the Deluxe Quilt Clamp to secure your quilt directly to the rails of your quilting frame for faster, easier loading without pinning.

For machine quilting on the Baby Lock Coronet Quilting Frame or Baby Lock Pearl Frame.

Instructions

1. Place the quilt layers (quilt top, batting and quilt backing) over the rail and press the Deluxe Quilt Clamp over the fabric and the rail to secure the quilt in place. The quilt will wrap over the front rail and under the back rail to keep the quilting surface level.
2. Clamp can be removed easily to reposition the quilt for a new work area or to make adjustments while quilting. Clamps are made from heavy-duty plastic and will not rust, snag or stain your quilt.
