Descriptions:

Braiding Foot:

Used for both couching and stitching, this braiding foot is adjustable, which allows for greater flexibility in the width of the braid, cord, ribbon, or elastic being applied.

Shirring/Gathering Foot:

Gather the fast and easy way with this foot. Baby Lock's gathering foot simultaneously gathers and attaches ruffles to garments, pillows, and other home décor items in no time.

Descriptions:

Roller Foot:

This efficient roller foot is great for controlling materials that are difficult to feed, such as silk, leather, velvet, vinyl, micro fibers, and suede. The textured rollers help move the foot freely across various fabric thicknesses without any damage or impressions.

Cording Foot - 7-holes:

This 7-hole cording foot makes attaching decorative cords and threads a snap. This foot eliminates tangling to ensure that cords lie flat and perfectly parallel to each other. The cording foot controls threads so both hands can guide the fabric. Use this foot to create decorative stitching over cording on single and double layers of fabric.

Open Toe Foot:

The open width and clear plastic of this foot make it perfect for projects that require visibility and stability, such as appliqué, surface embellishments, and stitching around intricate areas with decorative stitches. It even has a larger groove on the underside to accommodate thicker stitches and decorative threads.

Invisible Zipper Foot:

For truly invisible zippers with a professional appearance, this is the right foot to use. The zipper coils actually act as a guide for this foot, allowing for perfectly positioned stitches that won't show on the front of your garment.

1/4" Foot with Guide:

Eliminate swerving by running your fabric alongside the included guide. This foot ensures an exact 1/4" seam when piecing a quilt or a perfect 1/4" topstitch.

Descriptions:

1/8" Hemmer Foot:

This hemmer foot is perfect for hems that are too small to do by hand. It automatically curls under a 3mm double hem while stitching with either a straight stitch or a decorative Parisian hemstitch. Works best on blouses, gowns, and other projects with lightweight fabric.

Double Cording/Welting Foot:

Use this foot to couch single or double rows of 4-6mm cording to your fabric. It can also be used to make single and double rows of piping. The underside of the foot has two grooves to accommodate the cording. The double rows of piping, also known as double welting cords are often found as a finishing trim in home décor.

Edge Joining Foot:

For even-sided stitching when joining two pieces of fabric, lace or trim, try this edge joining foot. It's also great for narrow edge stitching and stitching seams directly into the ditch.

Descriptions:

Teflon Foot:

Create one-of-a-kind decorative surface embellishments that look and feel like chenille-type textures. This is the perfect foot to easily create loops, fringe, and heirloom fagoting. This foot can even be used for making accurate pattern markings.

Pintuck Foot:

Pintucks are a beautiful way to add texture to a classic heirloom or everyday garment. The five grooves on this foot allow for perfect spacing with professional results. This foot allows for precision pintucking when making corded and hollow tucks, as well as parallel and curved forms.
