

FOR THE LOVE OF SEWING

Regalia (BLRG20) Machine Update

Version 4.72

We are continually making improvements to the Baby Lock Regalia machine.

Changes addressed in this release are as follows:

- Increased overspeed alarm sampling. Pro-Stitcher no longer beeps with overspeed when running in fast mode.
- Changes were made to prevent an issue of parameters, such as lifetime/project stitch counts and run time, not being saved on power down.
